

## WHO WE ARE

The Mission of the Michigan Labor-Management Association (MLMA) and its partners throughout the state is to promote labor-management cooperation. The MLMA is the only statewide forum in Michigan that brings labor and management together to discover and act on issues of mutual interest. Through appropriate strategic cooperation, Michigan can continue to grow increasingly more competitive in the global economy and provide high quality, family supporting jobs.

The MLMA is led by a Board of Directors which includes company and union leaders, representatives of area labor management committees and organizations that support our mission (e.g. Federal Mediation and Conciliation Service, Michigan Employment Relations Commission, State Universities, etc.).
